

# Cross-Venture Daily/Weekly Checklist

Priority order: Agency first (funds apparel, proves grid) → Sales job (parallel) → Apparel (after 1 & 2, watch the escape-hatch risk) → Grid/Coaching not on this list (research-only / on hold). Full version: [daily-checklist.md](#).

Week  
of: \_\_\_\_\_

## Daily — check off in order (don't let Apparel jump the line)

| Task                                  | Mon | Tue | Wed | Thu | Fri | Sat | Sun |
|---------------------------------------|-----|-----|-----|-----|-----|-----|-----|
| 1. Agency<br>(3-6 touches, logged)    |     |     |     |     |     |     |     |
| 2. Sales job<br>(same-day log)        |     |     |     |     |     |     |     |
| 3. Apparel<br>(content + task)        |     |     |     |     |     |     |     |
| Breath check-in<br>(if pull shows up) |     |     |     |     |     |     |     |

## Weekly review (pick one slot — Friday or Sunday/Monday)

- ☐ Agency Friday review — touches/replies/calls tallied, objection language logged, one adjustment decided
- ☐ Sales job weekly review — appointments/closes/close rate vs. 18% min/20% stretch, fatigue-by-time-slot check
- ☐ Apparel weekly review — follower count, content posted vs. minimum, waitlist signups, vendor/influencer status
- ☐ sessions/CURRENT-STATE.md refreshed, if a new session got logged this week
- ☐ master-plan.md capacity assumptions sanity-checked against what actually happened (esp. real sales-job hours)

## Right now, this week (2026-08-05) — update as these resolve

- ☐ Apparel: mockup run today
- ☐ Apparel: vendor outreach worksheet filled out and sent back
- ☐ Apparel: reset the stale mockup-to-supplier date once mockups are done
- ☐ Agency: confirm LLC filed (~2026-08-09 target)
- ☐ Agency: first Friday review numbers
- ☐ Sales job: confirm 2026-08-10 start; confirm actual scheduled days/week once known

Grid startup and coaching practice deliberately have no line items here — grid is research-only with no defined weekly system yet, coaching is on hold.
